

## *Jivin' Johnny's Emergency Lesson Plans Sample Lesson*

### **'Let's Build It!':**

Pick something to build. Then give each student a number and as that number comes up, ask him or her to:

- supply a different part to whatever is 'being built' and
- describe why that particular ingredient is needed.

Teachers can list components on the chalkboard as they are suggested or have students do so before they explain the importance of the items they suggest.

Some things to build:

- a car
- a school
- a well-equipped kitchen
- a Shakespearean play
- a science lab
- a topographical map
- an ecosystem
- a textbook for a particular subject or topic
- a theatre
- a nursery
- a zoo
- a hospital
- a department store
- a magazine or newspaper
- a road system
- a park
- a house
- an outdoor store
- an Olympic gymnasium
- a computer system
- the human body
- a country
- a language
- a government
- a farm
- an airport
- a map of Europe
- a map of Europe before 1850
